This was a Blue-banded Pitta hunting tour for Ikumi-san, meanwhile he took the opportunity to tick some of his lifers. Before we off to the Northern Highlands of Sarawak for Blue-banded Pitta, we stopped by a remnant patch of Peat Swamp forest near Sabah/Sarawak border for **Hook-billed Bulbul** and also Brunei for **Garnet Pitta** (A Pitta which is absent in Sabah). Good enough we nailed down these 02 target birds smoothly and along with some good species like **Scarlet-breasted Flowerpecker, Red-crowned Barbet, Chestnut-bellied Malkoha, Grey-&-buff Woodpecker, Bornean Black Magpie, Grey-chested Jungle Flycatcher, Spotted Fantail** and others.

The next day we took a flight into a remote Highlands for our main target ~ the **Blue-banded Pitta**, and lucky enough we had it hopping closely in front of us, giving a mind blowing views and good opportunity to photograph. While waiting in the forest a male Hose's Broadbill was a big bonus for us, landed right above us and showing the blueish underpart, what a bird!!

With all of these good start we had leisure birding for the rest of the time and managed to get other key target endemic ~ the **Dulit Frogmouth, Bornean Frogmouth, Black-throated Wren-babbler, Whitehead's Spiderhunter, Mountain Barbet, Bornean Barbet, Bornean Bulbul, Bornean Leafbird, Pygmy Heleia, Bornean Forktail** and along with some good resident birds like **Orange-breasted Trogon, Ruddy Cuckoo Dove, Malaysian-eared Nightjar, Scaly-breasted Bulbul, Black-tighted Falconet, Rufous-chested Flycatcher, Chestnut-backed Scimitar Babbler, Cinnamon Bittern** and other common species like Chestnut-rumped Babbler, Velvet-fronted Nuthatch, Blue-eared Barbet, Raffle's Malkoha, Thick-billed Green Pigeon, Moustached Babbler, Hairy-backed Bulbul, Purple-naped Spiderhunter, Black-&-yellow Broadbill, Green-winged (Cinereous) Bulbul, Red-throated Barbet, Ruby-cheeked Sunbird, Little Spiderhunter, Dusky Munia, Bushy-crested Hornbill, Black-headed Bulbul & Chestnut-crested Yuhina, to name a few..
